

RITE NOW @ ROP

According to the US Bureau of Labor Statistics, the demand for Certified Nursing Assistants is estimated to increase 18% by 2024, faster than nearly every other job. This translates to a need for 300,000 additional CNA's to meet market need. At JoAnn Bridges Academy, the CNA program was selected due to the abundant opportunities that the training brings.

Currently five young women are enrolled in the CNA program at JoAnn Bridges Academy and in addition to classroom instruction, the school educators hosted Mrs. DeShala Frazier, BSN, RN to speak with the students about her experiences in the healthcare field. Mrs. Frazier taught Nursing classes at North Florida Community College and currently works as a clinical nurse. She also shared her life story, including the difficult times she weathered as a teenager. Frazier provided students with information about Nursing careers and the many opportunities available.
